This application is subject to a telephone or face to face interview with Hay Inc. Most training modules will not be nationally accredited but will offer practical on farm skills. On farm work experience placements will not be available to all participants and will rely on available farms for placement. Each farm will have different arrangements for board and keep. The cost of participation in the 15 days training modules will be \$400 per student. Food and Accommodation (if relevant) are not included in the program cost. Hay Inc can assist with arranging accommodation (applicant to cover accommodation cost). Enrolment and attendance at the training program is a pre-requisite for on farm placement.

Privacy — Information on this form will be used by Hay Inc for student administration, program development and evaluation. It is necessary for you to provide this information for prospective enrolment. Information provided will be held securely and disposed of securely when no longer needed. You may correct any personal details provided by contacting Hay Inc. Email info@hayinc.com.au Mob: 0439 938119
